

Screw Pump Lower Bearing

1. Combination radial and thrust spherical roller bearing
2. Self-aligning
3. Lower bearing supports the weight of the pump
4. L-10 life in excess of 100,000 hours
5. Gravity feed oil lubrication system for lower bearing (no grease pump required)
6. Oil reservoir contains an internal float switch, in the event of a low oil level in the reservoir, the pump will be shut off
7. Five year warranty
